Our Programmes

Piano/Keyboard:

Our piano/keyboard studies programme is designed to help the student build the right foundation for the instrument with elements of classical, jazz & improvisation over the duration of the programme. This will assist the student in deciding which style they prefer to focus on once they have a grasp of the basics. **(Age 5 upwards)**

Guitar:

Whether electric or acoustic, our programme will help the learner develop basic techniques on understanding the fret board, getting to know how to move smoothly from one chord to another and all that comes with building a strong foundation for guitar playing.

(Age 10 upwards)

Contemporary/Pop Voice:

Singing has evolved over the years with this style being the most popular today. We will provide the learner with the basics of singing with necessary exercises that will have them singing their favourite song the way it should be. As they develop, more techniques are included as the learner begins to shape their vocal preferences. **(Age 10 upwards + Audition required)**

Drums:

Our drumming programme is fun, just like the others, and yet develops the learners' rhythmic interpretation & aural perception in practical ways. Necessary theory is also covered so the learner can know how to read drum patterns. The foundation laid in this program will equip the student to take drumming as far as they desire to in life. **(Age 3 upwards)**

Sound:

Managing sound is one of the most exciting programmes we have as it infuses all elements of the other instruments into a blend that makes music what it should be, sound beautiful. We go into depth on the theory aspect of sound as to develop the students understanding of the science of sound manipulation & then the practical application is where the artistic expression is given a platform. **(Age 16 upwards)**

Bass:

As a critical part of the rhythm section, the student will develop a broad spectrum of skills which could even be applied to guitar. Besides the physical hand movements across the fret board that the learner will be taught, acute aural & visual perception will be another benefit that will come out of this programme. **(Age 10 upwards)**

About Us

Our History

Founded by Mark & Queenie Bismark in 2009 when they had a desire to see people, especially youth, who feel they have a talent, passion and calling for music being given an opportunity to develop the necessary skills to pursue this art form as a career and find purpose & fulfilment in what they do. This is the primary purpose of the KDC Academy's existence.

Our Vision

To become a leading music academic institution of excellence for the development of students to build sustainable careers in the music discipline.

Our Team

The academy is currently being managed by Lungelo Lukhele (B.A Music) and Portia Lukhele (Dip: Business Management), who together with other experienced lecturers, are professional musicians, technicians & administrators, capable of teaching the students the wide range of content within our study programs. All our lecturers use the highest calibre of teaching materials and methods to ensure learners get the most out of each lesson.

Our Commitment

We commit ourselves to developing skilled and competent musicians who can be proud to say they are part of the KDC Academy family.

What makes us different?

Even though we are a formal academic institution and expect discipline and excellence to be upheld by our teachers and students, we ensure our learners have fun and enjoy the learning process as music is more about passion and feel than anything else.

Lesson Details

Day Classes:

Friday	15:30 – 16:30 (scholars)	Piano, Guitar, Voice, Drums
Saturday	13:00 – 14:00	Live Sound

Evening Classes:

Wednesday	18:30 – 19:30	Piano, Guitar, Bass, Voice, Drums
-----------	---------------	-----------------------------------

Days & Times

Term 1:

January 28 – March 21

Term 2:

April 15 – June 24

Term 3:

July 22 – October 7

Term Dates

Registration Fee:

R300.00 per student

Close of Registration 2015:

February 27

Registration Fee

Term fees paid upfront: 5% Discount

Annual fees paid upfront: 10% Discount
